WATERCO LIMITED AND CONTROLLED ENTITIES

Half Yearly Report for the Period Ended 31st December 2021

ANNEXURE C

REVIEW OF OPERATIONS

REVENUE AND PROFITABILITY

For the six months ended 31 December 2021 (Half-year), the Group reported a Net Profit After Tax of \$4.059 million (Previous Corresponding Period, or PCP \$10.456 million) and Earnings Before Interest & Tax (EBIT) of \$5.635 million (PCP \$7.286 million).

Total Revenue was \$63.765 million (PCP \$64.26 million).

DIVISIONAL EBIT PERFORMANCE

The breakdown of EBIT contribution by division is as follows:

	Dec 2021	Dec 2020	% Change
	(\$000)	(\$000)	
Australia and New Zealand	4,320	2,822	+53%
Asia	1,625	2,488	-35%
North America and Europe	(310)	1,976	-116%
Consolidated Reported EBIT	5,635	7,286	-23%

AUSTRALIA AND NEW ZEALAND (ANZ)

In Australia and New Zealand (ANZ) the 53% improvement in EBIT was on the back of an increase in sales on the PCP. This is despite trading margins thinning due to unexpected increase in landed cost due to huge uplift in sea freight and some significant increase in component costs which we are unable to pass on to the market.

Sales increased by 7.4% compared to the PCP reflecting

- i) the contribution from the Autopool Acquisition to the business for a full half year, and
- ii) general restriction on travel for most of the half year as consumers unable to travel due to Covid 19 continued to spend their travel money on home improvements including new pools and updating existing pools and
- iii) the carrying of higher stock levels to cater for expected new customers unable to purchase pool equipment from other suppliers due to industry shortages and shipping delays.

ASIA

In Asia, a 35% reduction in EBIT compared to the PCP was brought about by a 22% reduction in external sales, arising mainly from project delays and a drop in sales of equipment for commercial pools, during the Covid-19 Pandemic.

The bulk of the reduction was in Malaysia which saw a 26% drop in local sales compared to the PCP.

Similarly, China saw a drop of 46% in local sales compared to the PCP, due to project delays and a drop in sales during the Covid-19 Pandemic

In Waterco Far East, the level of manufacturing operations in Asia showed a modest growth and continue to provide excellent support for the Group.

NORTH AMERICA AND EUROPE

In Northern America and Europe – namely Canada, the USA and Europe recorded a significant drop in EBIT for the current period – sales fell during the current period with Waterco Europe recording a 21% drop whereas Waterco USA experienced a 2% drop .

The easing of restrictions in both countries (earlier than Australia) meant the boom in sales (brought about by expenditure on home improvements) in the PCP did not repeat itself in the current period. The loss in Sales was also due to non-availability of stock caused by shortage of container space from Asia to North America and Europe. Some of the sales meant to be fulfilled by Christmas had to be postponed to the Second Half Year especially in Europe.

In Europe, Waterco Europe saw a drop in Gross Margins of 8% as the company tried to absorb the increased cost of product brought about by a general increase in component costs and huge increase in shipping costs.

Added to this was a forex turnaround from a gain in the PCP to a loss in the current period

In USA, Gross Margins also fell but only by 4% due to increased cost of product. In addition, a Government Covid Business Subsidy in the PCP was not repeated in the current year. The company also saw a 141% increase in outward freight expenses and forex turnaround from a profit to a loss thus putting the entity in a loss situation.

The main business season for this Division is in the second half of the financial year. The Group remains cautiously optimistic that this Division will make up some of the ground it lost in the first half.

PRODUCT DEVELOPMENT AND WATER TREATMENT

In this Half-year, Waterco invested approximately \$0.76 million on research and development, which was fully expensed. The Group continues to respond to market demands for innovative, durable and energy-efficient products, with vigorous efforts in this area.

The Group continues to develop water filtration products in Australia and overseas. This is an area which Waterco has specialised in over the years.

WORKING CAPITAL

	Dec 2021 (\$000)	Dec 2020 (\$000)
Inventory	43,563	36,500
Debtors	19,461	19,117
Creditors	(19,745)	(20,407)
TOTAL	43,279	35,210

The group's working capital as at December 2021 saw an increase of \$8.069 million, which resulted from an increase in inventory and debtors and decrease in creditors.

EARNINGS PER SHARE

The Earnings used in calculating the basic earnings per share of 29.2c in the previous corresponding period had included a positive tax adjustment of \$4.985m related to the profit on sale of Waterco C in the prior financial year. If we exclude the positive tax adjustment of \$4.985m from Earnings, the Adjusted Earnings for PCP would be \$5.499m and adjusted basic earnings per share would be 15.3c

Earnings per Share	Dec 2021 (\$000)	Dec 2020 (\$000)
Earnings used in calculation of basic EPS	4,106	10,484
Weighted average number of ordinary shares	35,721	35,943
Basic earnings per share	11.5c	29.2c
Earnings used in calculation of basic EPS	4,106	10,484
Income tax adjustment related to sale of Waterco C in prior year	-	4,985
Adjusted Earnings used in calculation of basic EPS (before tax adjustment)	4,106	5,499
Adjusted basic EPS	11.5c	15.3c

DIVIDEND AND OUTLOOK

Based on this Half-year result, the Board declares a fully-franked interim dividend of 3 cents per share payable on 15 June 2022.

This Half-year has been a challenging one, with the building industry downturn in China, China's ongoing trade issues with Australia and the USA, political instability in Malaysia and the continuing effects of the Covid-19 Pandemic especially on North America, Europe and Asia. The Australian Dollar has also fluctuated significantly against the US Dollar.

The Board expects the second half-year to be more settled as overseas borders begin to open and the Covid-19 vaccines number move above 90%
